

Mirabelle®

MIRABELLE®

Home. It's the refuge we return to every day.

The setting of some of our finest moments and the haven that brings us together. Where ease and comfort keep us connected, renewed and inspired.

Elevate your home with solutions that make life beautiful: the sensible sophistication of Mirabelle.

Mirabelle's design-driven plumbing products and accessories put a range of sophisticated styles sensibly within reach while delivering reliable performance to your kitchen and bath. From clean contemporary lines to thoughtful traditional details and on-trend styling, Mirabelle products help create a look that's uniquely your own. Because home is where your sensible side and your sophisticated side should live in perfect harmony.

BATH

Create a sanctuary that soothes and inspires with Mirabelle Bath. From the relaxing ease of sleek surfaces and modern contours, to the calming effects of finely crafted details and traditional lines, Mirabelle offers elegance that suits your style. Bring your vision of an inviting retreat to life with sophisticated function and beauty.

MAXIMIZE YOUR SPACE

Where every inch is valuable, smart solutions are key. Mirabelle's range of showerheads, body sprays, handshowers and accessories work together beautifully to create a spa-like custom shower experience in spaces of all sizes – and pamper you on a scale you never expected.

STYLE & FUNCTION

In the ideal bathroom, modern conveniences don't just do their jobs reliably, they make life easier along the way. The humble toilet is a shining example of a vital component whose improved features make a real difference. One-piece and skirted designs that are easy to keep clean and slow-closing seats that operate quietly are just some of the ways Mirabelle helps you elevate both style and function.

WET ROOM

Blending a European aesthetic with appealing accessibility features, the wet room concept creates a seamless illusion of space in your master bath. By integrating a tub within custom showering, often designed with no threshold separating it from the rest of the room, the effect can be luxurious, dramatic and surprisingly livable. Don't forget that layers of lighting can personalize your space and add the finishing touch to your Mirabelle wet room.

CONTRASTING FINISHES

In your bathroom, details speak volumes. Creating a look that leads the eye right where you want is easy when those details include a full range of decorative features and finishes from Mirabelle. Whether by accenting dark woods with accessories in light metal finishes or combining a faucet in oil rubbed bronze with white porcelain fixtures, creating contrast through finish selection gives your design major impact.

MIRABELLE FAUCET FINISHES

POLISHED CHROME

Bringing shining emphasis to a wide variety of faucet styles, versatile polished chrome is well suited to both vintage and contemporary décors.

BRUSHED NICKEL

Adding warmth and a soft touch, easy-care brushed nickel is compatible with granite and stone surfaces and creates a classic contrast to white features.

OIL RUBBED BRONZE

Dramatic yet classic, oil rubbed bronze is a favorite finish for creating a traditional look that accentuates craftsmanship and can suggest a timeworn quality.

POLISHED NICKEL

Smooth, shiny and versatile, polished nickel is a designer favorite that creates a sophisticated effect, adding elegance to both traditional and contemporary styles.

LAVATORY FAUCET GUIDE

SINGLE HOLE FAUCETS

These faucets have a spout and a single handle control together on the faucet body. Single hole faucets are intended for sinks or countertops that have only one faucet hole drilled. If you prefer the appearance of a single hole faucet but your sink or countertop is drilled for a 4" style faucet some models can be purchased with an optional deck plate to cover the extra holes.

WIDESPREAD FAUCETS

Widespread faucets are intended for sinks and countertops with three predrilled holes. The faucet body and handles are all separate pieces.

WALL MOUNT FAUCETS

This speciality faucet is installed directly to the wall above the sink rather than on the countertop or sink itself. This type of faucet requires that the water supply lines are positioned in the wall above the sink height. When purchasing a wall mounted faucet, check that the spout reach is long enough for adequate sink clearance based on the size of the sink bowl and the placement on the counter.

VESSEL FILLER FAUCETS

Vessel filler faucets have a taller faucet body intended for vessel style sinks which sit on top of the counter rather than below the counter. When purchasing a vessel filler faucet, you'll want to keep in mind the height of the bowl of your vessel style sink to ensure your faucet is tall enough to clear the rim.

CENTERSET FAUCETS

This style faucet is intended for sinks and countertops with three predrilled holes. Centerset faucets sit on a deckplate which connects the two handles with the spout body.

For installation instructions, diagrams and product specifications, visit

FLUSH LEVERS

MIRABELLE DESIGNER BATH FIXTURES

A collection of artistic expressions for the distinctive home environment. Mirabelle is a fusion of form, craftsmanship and function designed for the discriminating eye and imagination.

TOILET GUIDE

SLOW CLOSE SEAT

At its best, your bath is a quiet oasis of calm. Most Mirabelle toilets come standard with a Slow Close seat to eliminate noisy slamming.

ONE-PIECE VS. TWO-PIECE

Clean lines and a compact design give one-piece toilets modern appeal and ease of cleaning, while two-piece toilets offer great value in a familiar profile. No matter which you choose, Mirabelle toilets help combat bathroom grime – the sanitary bar featured on all Mirabelle two-piece toilets allows for the cleaning ease of a one-piece, at the price of a two-piece.

MIRBD241S

SKIRTED VS. EXPOSED TRAPWAY

Bathroom cleaning is a famously unpopular task, so spending less time on it is definitely a bonus. While the crevices of a toilet with an exposed trapway require careful attention, a skirted toilet helps reduce the amount of tedious cleaning. Thanks to its smooth silhouette, just wipe the side of the skirt and you're done.

HOW TO SELECT YOUR BATHING EXPERIENCE

SOAKER

Deep enough to immerse you in calm waters, elegant in form and impressive in impact. The quiet indulgence of a soaking tub is irresistible. Prepare to witness your cares melting away.

AIR

For a delicate touch and a full body experience, champagne bubbles are the answer. Adjust the airflow to create more movement and increase effervescence – your air bath experience is completely adjustable.

WHIRLPOOL

Powerful jets knead the day away in an invigorating whirlpool experience. Allowing you to target sore muscles and reduce tension, the result is instant relaxation and feeling blissfully restored.

TOTAL MASSAGE

Combining effervescent bubbles with invigorating jets, the total hydrotherapy experience allows for independent controls so you can create just the right balance of delicate and powerful sensations.

MIREDFS1000

TUB FILLERS: A FINISHING TOUCH

Dramatic and undeniably impressive, nothing says luxury like a freestanding tub, especially when complemented by a floor-mounted tub filler. Available in a range of styles and finishes to coordinate with both your room's décor and the styling of your tub, this is more than a stunning design element. Combined with features like a handshower and beautiful functionality, a tub filler enhances your bathing experience with performance and comfort.

For roman tub faucets and tub fillers, view our faucet collections on pages 14-33.

KITCHEN

The kitchen is the heart of any home. An expression of your personality. A place where beauty and simple elegance come face to face with the realities of Tuesday night dinner. To meet the challenge effortlessly, Mirabelle kitchen faucets and sinks are available in a wide range of styles. From traditional to contemporary, the way you live is beautifully expressed and supported in a Mirabelle kitchen.

MAKE A STATEMENT

While the kitchen is truly the heart of the home, the sink is the kitchen's indispensable centerpiece. Mirabelle ensures your kitchen sink also makes a strong statement with designs that meet your family's needs beautifully. From single-bowl simplicity to an apron-front design in stainless steel, the kitchen sink is ready to help you put a modern spin on its hardworking heritage.

CLEAN LINES & SMALL SPACES

Efficiency is key in every workspace, especially in the kitchen. Mirabelle single bowl kitchen sinks help minimize countertop clutter and create a feeling of open space – even when space is in short supply. Combined with a Mirabelle pull-down faucet to direct water where you need it, our deep bowl keeps splashing under control and makes prep work and clean-up comfortable and effortless.

KITCHEN FAUCET **GUIDE**

PULL-DOWN & PULL-OUT FAUCETS

These faucets are the ultimate in functionality as the faucet head pulls out of the body and water flow patterns can be adjusted from stream to spray with the touch of a button. You can easily clean the perimeter of the sink, quickly move from one item to the next within the sink or even fill a vessel next to the sink. This style generally uses one hole, creating a clean look with a highly functional design.

BAR/PREP FAUCETS

Bar faucets look very much like smaller scale kitchen faucets, are intended for use with bar/prep sinks, and dispense hot and cold water. A great addition to any kitchen or bar area, these faucets come in a variety of styles and designs. When used in a kitchen application they are often paired with the same style as the larger kitchen sink faucet.

WHAT'S A MAGNETIC DOCKING KITCHEN FAUCET?

The streamlined functionality of a pull-down and pull-out faucet head becomes an enduring feature thanks to our patented magnetic docking design. Integrated magnetic elements within the spout allow the faucet head to be easily released with a gentle pull, snap smoothly back into place after use and stay securely in position, even with frequent use over time.
